### Visit of business delegation from Tata to Sri Lanka

A nine-member delegation from Tata Sons led by Mr Madhu Kannan, Member of Tata Group Executive Council and Group Head of Business Development and Public Affairs of Mumbai headquarters, visited Sri Lanka in the last week of May 2015 to explore business opportunities in Sri Lanka.

The delegation also called on Industry and Commerce Minister of Sri Lanka, Rishad Bathiudeen. During the interactions, Mr Madhu Kannan stated that they wanted to use Sri Lanka as a manufacturing base to expand Tata's automotive exports in the region.

He also said the Tata Group is interested in setting up large scale wind farms in Northern Province as well as supplying transmission lines for Lanka's national grid.

### **CEAT Kelani invests in new advanced motorcycle tyre plant in Sri Lanka**

As per news reports, a new state-of-the-art facility for the manufacture of motorcycle tyres for the local and international markets has been commissioned in Sri Lanka by CEAT Kelani Holdings. The new plant has been set up within the CEAT Kelani complex at Kelaniya with an initial investment of SLRs 95 million. The new plant will operate as Asian Tyres (Pvt) Ltd., a member of CEAT Kelani Holdings, and would have an initial capacity of 162,000 tyres a year in 17 sizes.

Commenting on this latest investment in capacity and category expansion in Sri Lanka, Vijay Gambhire, Managing Director and CEO of CEAT Kelani Holdings said the new plant would contribute to supplementary import substitution, enhance export earnings and further consolidate CEAT's market share in the motorcycle tyre segment. The company already accounts for 17 per cent of the motorcycle tyre market in Sri Lanka, in addition to its market shares of 30 per cent in the radial segment, 52 per cent in the Truck/Light Truck category, 48 per cent in the 3-Wheeler segment and 73 per cent in the agricultural tyre segment.

### **Visit of Tourism Minister of Kerala**

The Minister of Tourism of the State Government of Kerala, A. P. Anilkumar, visited Sri Lanka in end April 2015. During his visit, a road show was organised by Kerala Tourism to popularize Kerala as a tourism destination. Speaking on the occasion, the Minister said that he was hoping to market a three-country destination tour package for travellers willing to visit India, Sri Lanka and the Maldives. He noted Kerala was looking to work closely with Sri Lanka in terms of tourism and in this respect, Prime Minister Ranil Wickremesinghe had called to strengthen their relations.

During the roadshow travel agents and tour operators from both countries participated at the business-to- business meetings. Around 20 tourism service providers from Kerala were present to meet with a number of tour operators and travel agents from Colombo.

Kerala Tourism was also looking at the possibility of recreating the spice route by including Sri Lanka on the track as well in addition, officials from Kerala pointed out the possibility of using the Cochin – Colombo – Male tour as a heritage circuit.

The roadshow highlighted a presentation on the Kerala sights and sounds perfecting the art of a great stay for travellers in "God's Own Country."

Kerala draws on similarities with Sri Lanka and has a unique charm, it was stated with natural attractions namely, beaches, backwaters, hill stations, green forests and the wildlife in addition to providing a haven for Ayurveda tourism as well.

### **Textured Jersey to acquire Ocean India Pvt. Ltd.**

Textured Jersey Lanka PLC (TJL) would soon be acquiring Ocean India Private Limited (OIPL) in India and Quenby Lanka Prints (Pvt) Ltd under the company's expansion programme. As per reports, TJL's independent valuation of OIPL in India and Quenby Lanka to further its acquisition plans is poised for completion in a few months time. Analysts have stated that the prospects of GSP -Plus concession in future would further augment TJL's momentum where European customers account for nearly 65 per cent TJI's revenue.

The company recorded its highest ever annual net profit of Rs. 1.3 billion for the year ending 31 March 2015, an increase of 16 per cent year-on-year. This result was achieved on the back of a Rs. 512 million net profit for the quarter ended 31 March 2015, representing a 46 per cent increase.

According to Mr. Bill Lam, Chairman of Textured Jersey, the strong quarterly performance enabled the company conclude the year with a record profit despite the slowdown in sales experienced in the early part of the year, attributed to unusual and extreme weather conditions in the United States.

### **Tata Motors and DIMO launch Zest and Bolt in Sri Lanka**

Diesel & Motor Engineering PLC (DIMO) together with Tata Motors launched two new cars, Zest and Bolt, for the Sri Lankan market. Tata Motors launched the Zest in India in August 2014 and the Bolt in January 2015, under its Horizontal strategy. These cars have been appreciated for their stunning new design language, best-in-class driving pleasure and high-tech, segment-first, connectivity features in India. The company manufactures both Zest and Bolt at its Pune plant.

### **Air India connects Colombo and Delhi with a non-stop flight**

Air India commenced daily flights from New Delhi to Colombo from June 15, 2015. India's national carrier Air India launched a direct, non-stop flight on the Colombo-Delhi-Colombo route. Flight AI 276 from Colombo will depart for Delhi at 0820 hours, arriving Delhi at 1205 hours. The return flight AI 275 from Delhi will leave at 1200 hours and reach Colombo at 1535 hours except on Wednesdays when the flight will leave Delhi at 1330 hours and reach Colombo at 1715 hours.

Speaking at the press briefing Air India Commercial Director Pankaj Srivastava said, "This was going to be a daily flight. Every day there's same time departure except on Wednesdays where due to operational reasons we have to reschedule the departure from Delhi by an hour and a half."

### **Introduction**

The automobile industry accounts for 22 per cent of India's manufacturing gross domestic product (GDP).

An expanding middle class, a young population, and an increasing interest of the companies in exploring the rural markets have made the two wheelers segment (with 80 per cent market share) the leader of the Indian automobile market. The overall passenger vehicle segment has 14 per cent market share.

India is also a substantial auto exporter, with solid export growth expectations for the near future. Various initiatives by the Government of India and the major automobile players in the Indian market is expected to make India a leader in the Two Wheeler and Four Wheeler market in the world by 2020.

### **Market Size**

Sales of commercial vehicles in India grew 5.3 per cent to 52,481 units in January 2015 from a year ago, according to Society of Indian Automobile Manufacturers (SIAM). Sales of cars also grew for a third month in a row to 169,300 units in January 2015, up 3.14 per cent from the year-ago period.

Car market leader Maruti Suzuki India witnessed 8.6 per cent higher sales at approximately 118,551 units in February 2015, out of which 107,892 were sold in domestic market and 10,659 units were exported. Hyundai Motor India Ltd (HMIL) reported a 2.4 per cent growth in total sales at 47,612 units in February, compared with 46,505 units in the same month last year.

In the two-wheeler segment, Hero MotoCorp witnessed sales of 484,769 units in February 2015. TVS Motor Co posted 15 per cent higher sales at 204,565 units against 177,662 units. Bajaj Auto sold a total of 243,000 two and three-wheelers segment.

### **Investments**

To match production with demand, many auto makers have started to invest heavily in various segments in the industry in the last few months. The industry has attracted foreign direct investment (FDI) worth US\$ 12,232.06 million during the period April 2000 to February 2015, according to the data released by Department of Industrial Policy and Promotion (DIPP).

Some of the major investments and developments in the automobile sector in India are as follows:

- ◆ DSK Hyosung has announced to set up a plant in Maharashtra and is planning to add 10-15 dealerships in the next financial year (FY 15-16) mostly in the tier-II cities and introduce more models in the 250cc segment.
- ◆ Germany-based luxury car maker Bayerische Motoren Werke AG's (BMW) local unit has announced to procure components from seven India-based auto parts makers.
- ◆ Mahindra Two Wheelers Limited (MTWL) has acquired 51 per cent shares in France-based Peugeot Motocycles (PMTC).

- ♦ Suzuki Motor Corp is planning to sell the automobiles made in the Gujarat plant, in Africa.
- ♦ Tata Motors Ltd, India's largest automobile maker, will sell trucks in Malaysia, Vietnam and Australia to strengthen its presence in the Asia-Pacific region.

### **Government Initiatives**

The Government of India encourages foreign investment in the automobile sector and allows 100 per cent FDI under the automatic route. Excise duty on small cars, scooters, motorcycles and commercial vehicles was reduced in February last year to 8 per cent from 12 per cent to boost the 'Make in India' initiative of the Indian government.

Some of the major initiatives taken by the Government of India are:

- ♦ Under the Union budget of 2015-16, the Government has announced to provide credit of INRs 850,000 to farmers, which is expected to boost the tractors segment. The government is aligning to ensure that at least one family member is economically strong to support the family. This is expected to improve the sentiments of entry-level two-wheelers.
- ♦ The Government plans to promote eco-friendly cars in the country i.e. CNG based vehicle, hybrid vehicle, electric vehicle and also made mandatory of 5 per cent ethanol blending in petrol.
- ♦ The government has formulated a Scheme for Faster Adoption and Manufacturing of Electric and Hybrid Vehicles in India, under the National Electric Mobility Mission 2020 to encourage the progressive induction of reliable, affordable and efficient electric and hybrid vehicles in the country.
- ♦ The Automobile Mission Plan for the period 2006–2016, designed by the government is aimed at accelerating and sustaining growth in this sector. Also, the well-established Regulatory Framework under the Ministry of Shipping, Road Transport and Highways, plays a part in providing a boost to this sector.

### **Road Ahead**

India is probably the most competitive country in the world for the automotive industry. It does not cover 100 per cent of technology or components required to make a car but it is giving a good 97 per cent, highlighted Mr Vicent Cobee, Corporate Vice-President, Nissan Motor's Datsun.

The vision of AMP 2006-2016 sees India, "to emerge as the destination of choice in the world for design and manufacture of automobiles and auto components with output reaching a level of US\$ 145 billion; accounting for more than 10 per cent of the GDP and providing additional employment to 25 million people by 2016."

The Japanese auto maker Maruti Suzuki expects the Indian passenger car market to reach four million units by 2020, up from 1.8 million units in 2013-14.

## ♦ Bilateral Trade with India

Bilateral trade turnover amounted to about US\$ 2148.66 million during the period January-May 2015. During this period Sri Lanka's exports to India were about US\$ 273.75 million, and imports from India were about US\$ 1874.91 million. During the month of May 2015, Sri Lanka's exports to India were about US\$ 52.67 million; and imports from India were about US\$ 371.33 million. India's share in Sri Lanka's global imports & exports was 22.58% and 6.03% respectively.

**Source:** Sri Lanka Customs, [www.customs.gov.lk](http://www.customs.gov.lk)

## ♦ Tourist Arrivals from India to Sri Lanka

The total number of tourist arrivals from India to Sri Lanka during January-June 2015 was 145,453 i.e. approximately 17.5% of the total tourist arrival into Sri Lanka. During the month of June 2015, 25,860 Indian tourists visited Sri Lanka as against 19,911 in the corresponding period of the previous year, an increase of 29.88%. Figures from the Sri Lanka Tourism Development Authority convey that during June 2015 the highest arrivals (25,860) were from India, followed by China (15,487), UK (8,580) and Germany (5,649).

Month	2014	2015	% Change 2014/15
January	146,575	156,246	6.6
February	141,878	165,541	16.7
March	133,048	157,041	18.0
April	112,631	122,217	8.5
May	90,046	113,529	26.1
June	103,175	115,467	11.9
July	133,971		
August	140,319

## Introduction: Foreign Direct Investment

Apart from being a critical driver of economic growth, foreign direct investment (FDI) is a major source of non-debt financial resource for the economic development of India. Foreign companies invest in India to take advantage of cheaper wages, special investment privileges like tax exemptions, etc. For a country where foreign investments are being made, it also means achieving technical know-how and generation of employment. The continuous inflow of FDI in India, which is now allowed across several industries, clearly shows the faith that overseas investors have in the country's economy.

The Indian government's policy regime and a robust business environment have ensured that foreign capital keep flowing into the country. The government has taken many initiatives in recent years such as relaxing FDI norms across sectors such as defense, PSU oil refineries, telecom, power exchanges and stock exchanges, among others.

### Market size

FDI into India through the approval route shot up 162 per cent to US\$ 1.91 billion in the first ten months of the ongoing fiscal year, indicating that government's effort to improve ease of doing business and relaxation in FDI norms may be yielding results. FDI to India doubled to US\$ 4.48 billion in January 2015, the highest inflow in last 29 months, from US\$ 2.18 billion in January 2014.

The foreign inflows have grown to touch US\$ 25.52 billion during the April-January 2014-15, up 36 per cent year-on-year (y-o-y), from US\$ 18.74 billion in the corresponding period last fiscal, according to Department of Industrial Policy and Promotion (DIPP) data. The top 10 sectors receiving FDI include telecommunication which received the maximum FDI worth US\$ 2.83 billion in the 10 month period, followed by services (US\$ 2.64 billion), automobiles (US\$ 2.04 billion), computer software and hardware (US\$ 1.30 billion) and pharmaceuticals sector (US\$ 1.25 billion).

India received the maximum FDI from Mauritius at US\$ 7.66 billion, followed by Singapore (US\$ 5.26 billion), the Netherlands (US\$ 3.13 billion), Japan (US\$ 1.61 billion) and the US (US\$ 1.58 billion) during April-January 2014-15 period. Healthy inflow of foreign investments into the country helped India's balance of payments (BoP) situation and stabilised the value of rupee. Also, deals worth US\$ 3.4 billion across 118 transactions were struck in January in India, compared with US\$ 1.6 billion across 87 transactions in January last year and US\$ 1.2 billion across 74 deals in the same month a year before that, according to a Grant Thornton report on merger and acquisition (M&A) and private equity (PE) activity. Inbound deals have more than tripled in value, led by the Herman-Symphony transaction worth US\$ 780 million and three other deals worth more than US\$ 100 million each.

### Key developments/ investments

Based on the recommendations of Foreign Investment Promotion Board (FIPB) in its meeting held on February 17, 2015, the Government has approved ten proposals of FDI amounting to INRs. 2,857.83 crore (US\$ 452.72 million) approximately.

- ♦ Bengaluru-based business process outsourcing (BPO) firm Hinduja Global Solutions Ltd (HGS) has announced that it has acquired a majority stake in Colibrium Partners LLC and Colibrium Direct LLC. The acquisition has been made by HGS Colibrium Inc, a US subsidiary of HGS, which would own 89.9 per cent of Colibrium, a wellness automation technology firm.

- ◆ Insurance Australia Group Ltd (IAG) is set to raise its stake in its general insurance joint venture with the State Bank of India (SBI) from 26 per cent to 49 per cent, in the first such instance after Parliament cleared a bill on March 12 that raised the maximum permitted foreign stake in insurance sector.
- ◆ The Maharashtra government has signed a memorandum of understanding (MoU) with the Swedish furniture retailing giant, IKEA, to set up two to three stores, with an estimated investment of around Rs 1,800 crore (US\$ 285.14 million).
- ◆ European aircraft major Airbus, which had sourced more than \$400 million worth of components from India in the past year, has signed an agreement with Bengaluru-based Dynamatic Technologies for supply of flap-track beams for its A-330 wide-body planes
- ◆ India has received proposals worth Rs 21,000 crore (US\$ 3.32 billion) from companies under the Union government's Make in India programme. Of this, Rs 6,000 crore (US\$ 950.61 million) of proposals have already been cleared.

## Government Initiatives

The Government has amended the FDI policy regarding Construction Development Sector. The amended policy includes easing of area restriction norms, reduction of minimum capitalisation and easy exit from project. Further, in order to give boost to low cost affordable housing, it has been provided that conditions of area restriction and minimum capitalisation will not apply to cases committing 30 per cent of the project cost towards affordable housing. Relaxation of FDI norms are expected to result in enhanced inflows into the Construction Development sector consequent to easing of sectoral conditions and clarification of terms used in the Policy. It is likely to attract investments in new areas and encourage development of plots for serviced housing given the shortage of land in and around urban agglomerations as well as the high cost of land. The measure is also expected to result in creation of much needed low cost affordable housing in the country and development of smart cities.

The government has also raised FDI cap in insurance to 49 per cent from 26 per cent through a notification issued by the DIPP. The limit is composite in nature as it includes foreign investment in forms of foreign portfolio investment, foreign institutional investment, qualified foreign investment, foreign venture capital investment and non-resident investment. Also, India's cabinet has cleared a proposal which allows 100 per cent FDI in railway infrastructure, excluding operations. Though the initiative does not allow foreign firms to operate trains, it allows them to do other things such as create the network and supply trains for bullet trains etc.

## Road Ahead

Foreign investment inflows are expected to increase by more than two times and cross the US\$ 60 billion mark in FY15 as foreign investors start gaining confidence in India's new government, as per an industry study. India will require around US \$1 trillion in the 12th Five-Year Plan (2012–17), to fund infrastructure growth covering sectors such as highways, ports and airways. This requires support in terms of FDI. The year 2013 saw foreign investment pour into sectors such as automobiles, computer software and hardware, construction development, power, services, and telecommunications, among others.

Department of Electronics & Information Technology (DeitY)  
Ministry of Communications and Information Technology  
Government of India

*Digital India*  
Power To Empower

"E-Governance is an essential part of our dream of

# Digital India.

The more technology we infuse in Governance,  
the better it is for India."

Shri Narendra Modi

Hon'ble Prime Minister of India

# Digital India

## OVERVIEW

---

Digital Technologies, which include Cloud Computing and Mobile Applications, have emerged as catalysts for rapid economic growth and citizen empowerment across the globe.

Digital technologies are being increasingly used by us in everyday lives, from retail stores to government offices. They help us connect with each other and also share information on issues and concerns faced by us. In some cases they also enable resolution of those issues in near real time.

Hon'ble Prime Minister envisions transforming our nation and creating opportunities for all citizens by harnessing digital technologies. His vision is to empower every citizen with access to digital services, knowledge and information.

Digital India is the NEXT BIG THING that India is witnessing. It aims at profoundly touching the lives of everyone with the transformation travelling the paths of both rural and urban India.

The initiative is powered by three key vision areas and nine strong pillars that shall pave the way for all round implementation by 2019. Digital India sets pace for a makeover that shall change the face of the entire nation, impacting cities, towns, villages everywhere.

This pace and energy will also permeate all current and future e-governance projects and take them towards true citizen centricity.

Digital India will bridge the stark differences between digital "haves" and digital "have-nots" to ensure that government services reach every household in order to create a long-lasting developmental impact.

It will bring in greater thrust to promote inclusive growth that covers electronic services, products, devices and job opportunities.

It will facilitate an enabling environment for electronic manufacturing on a much larger scale to match the growing needs of the country.

The Government of India has approved the 'Digital India' programme with the vision to transform India into a digitally empowered society and knowledge economy. The focus is to bring transformation to realize:

"Digital India: Power To Empower."

# DIGITAL INDIA

## IMPLEMENTATION APPROACH

Digital India shall follow a participative implementation structure. By this we mean that it shall invite suggestions from all stakeholders namely citizens, government and industry and derive the best from them to form innovative solutions.

The implementation shall be done in several bits and pieces with each element being very crucial at its own place. Every module shall have its own completion timeline and a unique implementation plan.

A collaborative approach towards achieving the vision shall be followed by completing each module and thus contributing to the larger picture. Department of Electronics and Information Technology (DeitY) shall be responsible for overall coordination of the project.

All the initiatives under this programme, including establishing and expanding core ICT infrastructure, delivery of services etc. have definite targets for completion.

A majority of the initiatives are planned to be realized within the next three years. Some of the initiatives planned for early completion ("Early Harvest Programmes") and citizen communication initiatives ("Information for All") are already up and live.

The Digital India programme aims to pull together many existing schemes. These schemes will be restructured, re-focused, and implemented in a synchronized manner. Most of them only require process improvements with minimal cost implications.

The coming together of programmes under one common "Digital India" brand emphasizes their transformative impact.

DeitY has already launched a digital platform named as "MyGov" ([mygov.in](http://mygov.in)) to facilitate collaborative and participative governance.

Moreover, several consultations and workshops have been organized to discuss the implementation approach of the vision areas of Digital India.

## VISION AREA 1 | Digital INFRASTRUCTURE AS A UTILITY TO EVERY CITIZEN

## Governance

AND SERVICES  
ON DEMAND

## Digital

EMPOWERMENT OF CITIZENS
